Time: Monday 2:45-3:50 PM

Location: Art Room

Fee: \$90/session

Description: Students (K-5<sup>th</sup> Grades) work with science tools, collect and analyze data, utilize science-based literacy, and experience a hands-on lab. Each session lasts five weeks and are as follows:

- **Zany Zoology** – If your interests are on the WILD side, then this is the club for you! Explore the world of animals, from A to Z. Examine an owl pellet, get up close and personal with insects, make art from a fish, build a bird feeder and much more. Classify creatures that slither, swim, crawl and fly. Unleash your curiosity as we journey through the animal kingdom.
- **Extreme Electricity** – Zap! Electrify your interest as we build a working telegraph, experiment with conductors and insulators, build an electromagnet and much more. This club takes electricity to the extreme! We'll charge up those electrons and send them spinning around the room. It's zapping science that will give your brain a charge!
- **Radical Reactions** – Enter our reaction lab and you will be transformed into a chemist! Create chemical concoctions that fizz, bubble and ooze. Make your own chemical reactions – super polymer bouncy ball, get slimed out, meet the mysterious Mushroom Men, create a snow-storm in a bottle and much more. If you like mixing things up then come get radical in our lab!
- **Unsolved Science** – Science Matters needs your help to solve the Unsolved Science Mystery! Use forensic science skills to solve the mystery and become a Chemical Detective! Create your own Chemical Detective Kit, lift and identify crime scene fingerprints, reveal secret messages, extract DNA and discover more forensic science techniques used in crime scene investigations! In this club, you can become a Science Super Sleuth. Can you help explain unsolved science?
- **My Amazing Flying Machine** – Zoom your way into this high flying club. Speed your way through the four forces of flight by making a ping pong ball float, designing your own parachute, sending rockets into the atmosphere, building your own plane and much more. Soar your way through this aerodynamic club. May the four forces of flight be with you!
